	F273 - LAND AND LAND

Site identifiers (e.g. P321) may be used to reference sites in the Ontario's Living Legacy Land Use Strategy document. Forest reserves whose identifier contains the same number as an adjacent provincial park or conservation reserve (e.g. F321) were created as directed in the Land Use Strategy when more complete information on mining tenure was gathered during the refinement of the site boundary. Areas indicated with the letters 'NS' are excluded from the site boundary.

This map is illustrative only. Do not rely on it as being a precise indicator of routes, locations of features, nor as a guide to navigation.

Only Ontario Crown land is included in this proposed provincial park. Where the boundary appears to overlap private land, Federal land, Indian Reserves, or existing Mining Act tenure, that portion of the site is not being regulated as a part of this provincial park. Consistent with the Ontario's Living Legacy Land Use Strategy however, should mining claims or leases within this area be retired in the future through normal processes, these claim or lease areas will be withdrawn and added to the provincial park.
